That is why

Twelve living things that break biology's rules

Icefish: clear blood

Platypus: lays eggs

Axolotl: never grows up

Scaly-foot snail: iron shell

Flamingo: pink from its food

Salamander: algae inside

Tardigrade: dries out

Wood frog: freezes solid

Sea cucumber: regrows its gut

Jellyfish: turns young

Cuttlefish: skin like a screen

Slime mold: no brain

Simplified drawing: not to scale.
